

Fig. 1

The drawing shows a cross-section of a mechanical assembly. The main body is labeled 1. A vertical support on the left is labeled 2. A horizontal arm extends from the main body, with a vertical dimension 7 indicating its height. A vertical dimension 8 indicates the distance from the base to the center of the arm. A vertical dimension 10 indicates the total height of the assembly. A vertical dimension 5 indicates the distance from the base to the center of the arm. A vertical dimension 6 indicates the distance from the base to the center of the arm. A vertical dimension 4 indicates the distance from the base to the center of the arm. A vertical dimension 3 indicates the distance from the base to the center of the arm. A vertical dimension 9 indicates the distance from the base to the center of the arm. A vertical dimension 15 indicates the distance from the base to the center of the arm. A vertical dimension 16 indicates the distance from the base to the center of the arm. A vertical dimension 17 indicates the distance from the base to the center of the arm. A vertical dimension 18 indicates the distance from the base to the center of the arm. A vertical dimension 19 indicates the distance from the base to the center of the arm.
